

SUMMARY
Lower Coosa Sub-Basin
May 12, 2016
Paradise Point Marina
Columbiana, Alabama
LAKE CLEAN UP

Attendees: Russell Harry (ADPH); Steve Miles (Lake Mitchell HOB0); Missy Middlebrooks (ADEM); Marvin Pipkin (Lay Lake HOB0); Frank & Judy Jones (Lay Lake HOB0's); Richard Patton (Lay Lake HOB0); John Carroll (Lay Lake HOB0); and Heidi Richards (Coosa Basin Facilitator).

Everyone met and disbursed in boats that were volunteered by Lay Lake HOB0's to participate in the week long Lay Lake Clean Up. The small but productive group worked for about two hours before returning to the Marina where Harry conducted a working lunch meeting. Harry invited the Lay Lake HOB0's to stay for the meeting; and they did.

Harry: "Thanked" everyone for their participation in the Clean Up. He recapped points from Summary from the February 11, 2016 meeting. Miles reported on the tree distributions that took place in February and March. Miles reported that he had followed up on the tire recycling program, also.

Troubled Areas: Harry: Asked if anyone had areas of concern.

Richards: Shared the information that a local resident had contacted her about downed trees in Beeswax Creek. (Pat Thompson) After discussion with group, Harry agreed to provide Richards a possible contact to pass along to Thompson that might assist her.

Lay Lake HOB0's: Some had concerns about the lack of erosion control practices at some of the local new subdivisions. Middlebrooks agreed to give them a link to the complaint submission database: <http://app.adem.alabama.gov/complaints/submission.aspx>

Judy Jones: Will let Richards know the "weight" of the amount of litter collected.

Next Meeting Date: **August 11, 2016 @ 10:00 A.M. Location TBA.**

With no further business, meeting adjourned.
